## **Support the Fourth Convoy of International Workers Aid—to help the people of Mikolaiv**

***In collaboration with the  
Trade Union of Education and Science Workers of Ukraine (TUESWU)***

In August 2023, International Workers Aid, based in Catalonia, will take funds collected in this appeal to the city of Mykolaiv, where it will be distributed through the [Trade Union of Education and Science Workers of Ukraine \(TUESWU\)](#).

International Workers Aid has already taken part in similar deliveries to independent iron and coal mining unions in Krivih Rih and Dovropilia, and to railway unions in Krivih Rih and Zaporizhzhia.

The aid will be raised in cash, to buy the most needed resources on the ground in Mikolaiv and to help revive the local economy. The delegation travelling in August will take part, together with the TUESWU, in these purchases and their distribution.

Please collaborate with this initiative of worker-to-worker aid, either with contributions, by spreading the word among your friends and networks, and by raising the initiative in your trade union branches.

***TUESWU actively supports refugees, contributes to the provision of humanitarian aid, and provides assistance to its members.***

***Excerpt from letter from TUESWU president Georgiy Trukhanov to Catalan and Spanish unions ([see full letter here](#))***

*'In view of the situation in Ukraine, the Trade Union of Education and Science Workers of Ukraine appreciates your support to Ukraine in this difficult period for our country, and your willingness to help Ukrainian education workers.'*

*'The aid received by the Trade Union of Education and Science Workers of Ukraine will be used to buy food (canned food, cereals, flour, sugar, etc.) and clothes, for workers in the sector, for members of the union and for families in a region where living conditions are appalling.'*
